

SCHLOMKA'S VAC TRUCK SERVICE INC.

Schlomka's Vac Truck Service Inc. (SVTS) offers excellent employment opportunities for stable career minded individuals. SVTS prides itself on hiring and keeping the best of the best. We are looking for self-motivated people with a positive work attitude. SVTS is a service-oriented company, and as such, you would be interacting with clients and their management personnel. All of the work is in outdoor conditions and subject to inclement weather from time to time. In order to accommodate our clients, you can expect flexible work schedules as well as some out of town assignments. The ability to communicate verbally, complete work orders and time sheets would be very beneficial.

We have an extensive Training and Safety Program and orientation. Safety is our number one concern, and we provide you with the safest working conditions and environment possible. You will be provided with the best Person Protection Equipment. We have regular safety refresher courses, and annually update the company's safety manual to reflect changes and modifications.

Schlomka's Vac Truck Service Inc. owns, operates and maintains the newest and finest vac trucks and equipment. We have an internal service department. Our shop facility has 6 open bays and is equipped to perform all minor and major repairs. Our shop also has 1 wash bay to keep our trucks clean. We keep a full inventory of tires, parts, filters, etc. So, if your truck or vac system needs attention, there is no waiting for 3rd party repairs. Daily equipment inspections guarantee prompt repairs so the trucks will be available to you.

Schlomka's Vac Truck Service Inc. is an integrated environmental company specialized in providing services to Energy and Industrial, Commercial, Railroad and Government clients. With operations in maintenance work, utilizing vacuum trucks and high-pressure washing equipment to large-scale site remediation and abatement. Our core competencies involve specialized risk management tools and are performed in strict compliance with complex regulatory requirements. We provide these services using in-house resources, enabling exceptional quality control.

Job Summary

POSITION DESCRIPTION: The Vacuum Operator is the “face” of Schlomka’s Vac Truck Service Inc. This position has more personal contact with our customers than any other job within the company. Dedication, punctuality, resourcefulness, customer friendliness and a positive attitude are all attributes to making a person successful in this position.

The Vacuum Truck Operator must be able to work in compliance in the delivery of SVTS’s four (4) core service lines (Emergency Response, Industrial, Facility Decontamination, and Site Remediation). Drivers must adhere to and maintain strict compliance with corporate/office policies and procedures, established health and safety protocols, and all applicable local, state, and federal regulations.

Job Responsibilities

- Execution of field work encompassed in remediation and industrial maintenance projects while under direct or indirect supervision.
- Drive an average of 30% of the time as well as work onsite as part of a team. Depending on location, drivers may be asked perform the duties of a Field Laborer if business needs warrant it.
- Correct completion of all job-specific, employee-related and equipment-related STVS paper work including Timesheets, Daily Work Reports, Driver’s Logs, Pre and Post Vehicle Inspection.
- Understand and enforce project’s detailed scope-of-work to maintain strict compliance with contract documents, project schedules, and corporate policies and procedures.
- Work safely during all phases of performing the job duties required in the field.
- Ability to perform work inside areas of varying dimensions, involving squatting and crawling for possible extended periods.
- Ability to follow directions; read/speak and understand English; read and understand common danger placards / labels and hazardous warning literature including site safety plans.
- The ability to safely drive and perform safety checks on all vehicles for which licensed.
- Operate various vehicles safely, including but not limited to Vacuum Truck for liquids, Vacuum Truck for Dry Materials, Hydro Excavator.
- Project work may require out of town travel for two weeks or more.
- Must be able to understand and comply with company and client safety standards.
- Due to the diversity of both scheduled and no-scheduled projects, physical demands, and environmental conditions vary significantly depending on the project.
- Work outside year-round in all types of weather.
- May work in environments that are extreme in nature like environmental conditions such as heat, cold, heights, hazardous chemicals, loud noises, dangerous equipment, long hours etc.
- May be exposed to varying levels of physical activities and physical extremes such as long periods of standing, walking, crouching, use of hands, and heavy lifting of up to 50 pounds or more.
- Request to be clean shaven at times to allow immediate donning and seal of respirator.

Qualifications

- Requires High School Diploma or GED (or equivalent reading, writing and reasoning skills)
- 2-3 years of experience operating vacuum trucks (or similar equipment).
- Additional experience in related work (emergency response, manual labor, general construction, industrial work) is preferred.
- A valid CDL Class A Commercial Driver's License (Hazmat and Tanker endorsements preferred) is required and in good standing.
- A valid CDL Class B Commercial Driver's License is required and in good standing.
- OSHA 40-HR HAZWOPER and Confined Space Entry certifications are desired but not required.
- Successful completion of a pre-employment background and substance screening process including, but not limited to, employment verifications, criminal search and Motor Vehicle Record (MVR) search as well continued verifications throughout employment to ensure that all records meet company policy standards.
- Ability to lift 50 pounds.
- Willing to work in adverse weather conditions.
- Willing to work in confined spaces.
- Must have dependable transportation and willing to travel.
- Willing to work occasional non-traditional hours.
- Have current DOT medical card.
- Ability to drive standard shift transmission.
- Pass a pre-employment drug screen test.
- Be able to work and function as part of a team.

Preferred Qualifications

- Pipeline experience
- Underground Utilities Construction experience
- Heavy equipment experience
